List of Schools Department Standard Reports 1986/87 School Year 111

INTRODUCTION

The tables in this document supplement the information provided on a number of topics in the Ministry of Education Annual Report for the period July 1, 1986 to June 30, 1987.

The Public School Education portion of the Annual Report was organized according to the four broad learning areas (goals) on which schools are expected to focus and the six attributes of a quality school system. These were discussed in the Introduction to the Annual Report. The tables in this supplement are arranged in similar format, although there are not tables in support of all of the goals and all of the attributes.

The Annual Report provides information at the provincial level. This document generally provides district level information, as well as additional details at the provincial level.

Most of the tables are standard reports produced annually by the Ministry from data collected from the school districts as of September 30. Tables on tax and budget information were prepared by Schools Research and Analysis Branch. Other sources are noted on the individual tables.

At the end of the document, there is a list which describes all the standard reports available from the Ministry.

Source: September 30 Enrolment Form 1523
Ministry of Education Transcript System
Prepared January 1988 by Schools Research and Analysis Branch

Notes: A 1986/87 graduate is a student who has completed provincially prescribed graduation requirements as summarized in the Ministry Policy Circular 40 of 87/08/20. Students included in the graduation count are those who received transcripts through the Ministry's Transcript System at the end of the school year (July). Students who completed the Adult Secondary Program (requirements established by the Ministry) are included. Students who completed graduation requirements by correspondence and are not registered in a public school are excluded from the Transcript System.

Students completing graduation requirements other than at the end of the school year (i.e. January graduates or those completing requirements through summer school or by writing August examinations) are not necessarily included. The reason for this is that schools are responsible for producing transcripts except for the one occasion in July when the Ministry produces the transcripts. A school may report to the Ministry the number of transcripts which the school has issued, but not all schools follow this practice. Transcripts reported by the schools are included in the Ministry statistics.

During the summer, the Ministry continues to update the Transcript System as additional information is received from the schools. In the fall, the records are placed in archives prior the start of processing graduates from the next school year. Therefore, the number of graduates may vary with the report date.

REPORT 1572B - 1986/1987 SCHOOL YEAR
B.C. PUBLIC SCHOOL ELEMENTARY AND SECONDARY WITHDRAWALS
AS A PERCENTAGE OF TOTAL SEPTEMBER ENROLMENTS

SOURCE: FORM 1502 (JUNE 30, 1987) FORM 1523 (SEPTEMBER 30, 1986)

Note: Withdrawals are students who ceased to attend any public school in B.C. between September 30 and June 30 of the same school year. It is probable that some of these students may have attended a private school or a school outside the province. Withdrawals exclude January graduates.

COST-EFFECTIVENESS

Comparison of 1986/87 and 1987/88 School District Gross Operating and Gross Total Budgets Per Pupil

This table compares the Gross Shareable Operating Amount, the Gross Operating Amount, Gross Operating Budgets (excluding Teachers' Pensions and Textbook Credit Allocation Plan Amounts), and Gross Total Amounts per FTE pupil in the previous and current school years. For comparative purposes, Provincial Resource Program Amounts have been excluded from 1986/87 Shareable Operating Amounts. The table also provides the percentage change in these items during the two years. Provincial (weighted) averages are provided.

The FTE pupils used for 1986/87 and 1987/88 per-pupil budgets are actual September 1986 and projected September 1987 enrolments respectively.

TABLE 12

COMPARISON OF 1986/87 AND 1987/88 SCHOOL DISTRICT GROSS OPERATING AND GROSS TOTAL BUDGETS PER PUPIL

	Gross Shareable Operating Amt. (inc Pensions & Textbooks but excluding P.R.P.) Per Pupil			Gross Operating Amount (inc Pensions & Textbooks) Per Pupil			Gross Operating Budget (excl Pensions & Textbooks) Per Pupil			Gross Total Amount (inc Pensions & Textbooks) Per Pupil

TABLE 13

Taxes Paid by the Owner of an Average Home for each Component of School Tax (1986 and 1987)

This table shows, by school district for 1986 and 1987 calendar years, the estimated gross school tax paid by the owner of an average (median) home for the shareable operating, supplementary operating, debt service and non-shareable capital amounts of the district budget and the change in tax between those years. It also shows the total gross school tax, the net school tax after the homeowner grant is applied, and the change in these assessments for those years.

The median home is identified from stratification studies prepared by the B.C. Assessment Authority.

TABLE 13

TAXES PAID BY THE OWNER OF AN AVERAGE HOME FOR EACH COMPONENT OF SCHOOL TAX

	Shareable Operating Amount			Supplementary Operating Amount			Debt Service			Non-Shareable Capital			TOTAL GROSS SCHOOL TAX			less Homeowner Grant	yields NET SCHOOL TAX		
	1986	1987	Change	1986	1987	Change	1986	1987	Change	1986	1987	Change	1986	1987	Change		1986	1987	Change

Table12S.wk1

Net Tax Paid by the Owner of an Average Home between 1981 and 1987

This table shows, by school district, the estimated net school tax paid by the owner of an average (median) home, the change in tax over the previous year, and the change from 1981 to the current calendar year.

The median home is identified from stratification studies prepared by the B.C. Assessment Authority.

TABLE 14

NOTE: Funding in 1986/87 was directed at projects relating to teacher training, computer hardware and software, equipment acquisition and program effectiveness. Funding in 1987/88 was distributed based on enrolments and was to be used for projects determined locally as long as they did not involve an on-going commitment to operating costs.

TABLE 27

Source: Council of Ministers of Education, Canada. The Financing of Elementary and Secondary Education in Canada. (in press)

Note 1: Boards in Saskatchewan, Manitoba, Ontario and Nova Scotia use a calendar fiscal year. Boards in Alberta, British Columbia, Quebec, New Brunswick, Newfoundland and Prince Edward Island use a school fiscal year. Data are reported for the respective fiscal years.

Note 2: Ontario converted calendar year cost data to a school year basis (40% of one year and 60% of the next) and divided that figure by enrolment for the corresponding school year to determine operating cost per pupil.

Note 3: Terminology used in this table is established by the Council of Ministers of Education but may vary from terminology used in documents prepared by individual provinces.

LIST OF STANDARD REPORTS

1986/87

SCHOOLS DEPARTMENT STANDARD REPORTS
1986/87 SCHOOL YEAR
Revised 87/04/22
Data Limitations

Please note the following information before making any comparisons between school years with regard to withdrawals (dropouts) or graduates.

Definitions:

Dropouts are students who are enrolled in September and withdraw from any further schooling.

Withdrawals are students who ceased to attend any public school in B.C. between September 30 and June 30 of the same school year. It is probable that some of these students may have attended a private school or a school outside the province. Withdrawals exclude January graduates.

Past reports from the Ministry may have used the terms "dropout" and "withdrawal" interchangeably and might not have been referring to the same thing.

Figures on Reports 1572 A and B should be used with caution in any comparison with previous school years. In some previous years, students who transferred to private schools or schools in other provinces were accounted for and the Ministry was reporting a true dropout figure. Currently the Ministry collects true withdrawals figures. From 1965/66 to 1983/84 withdrawals are expressed as a percentage of June enrolments. Beginning in 1984/85 the withdrawal percentage is based on September enrolments. This has only minimal impact.

Graduate - A student who has completed the provincial graduation requirements as outlined in the Administrative Handbook. These are students who start Grade 12 in September and who graduate by the following June. Comparison of statistics on Graduation Reports over several years should be used with caution since the manner of reporting these figures and compiling the reports has changed.

Please note the following:

Prior to 1969/70 - only June grads were included.
1968/69 - 1973/74 - Correspondence graduates were included.

Sources of Grad Statistics

1948/49 - 1973/74	Computer and manual records from the Registrar's Office, Form E21, Examination and Correspondence Branches.
1974/75 - 1983/84	Form E21
1984/85	Phone Survey conducted by Systems Services Branch.
1985/86 - Current	Ministry of Education Electronic Transcript System.
Grads as a Percentage of Enrolment:	1951/52 - 1982/83 were based on June enrolment.
	1983/84 and later were based on September enrolment.

Graduation Statistics Included

1966/67 - 1972/73	Academic/Technical, Commercial, Community Services, Industrial, Visual and Performing Arts.
1973/74 - 1979/80	Selected Studies (Arts, and Science, Commerical, Industrial, Community Services, VPA and Other) and Combined Studies.
1980/81 - Current	All students who had completed the Ministry of Education requirements for graduation included January Grads and those who had completed the requirements at summer school prior to the new school year.
